

# Pleiadian Lecture Series

*"Fine Tuning for the Shift"*

August 2, 2009  
2:00pm - 5:00pm

Often times the biggest growth comes as a result of the smallest shifts in our perspective. The big changes we need to make seem obvious. It's the little ones that can be a bit more elusive.

Join Wendy Kennedy as she channels the 9th Dimensional Pleiadian Collective. If you haven't had the opportunity to hear the Pleiadians in person, now is your chance. The Pleiadians will be speaking on:

- The importance of being grounded in your body
- Integration of other aspects of self (i.e. other lifetimes)
- Stepping into the role of Creator Being
- Forgiveness
- Much, much more!

A good portion of the afternoon will be devoted to Q&A so you will be able to ask the Pleiadians for their perspective on all your burning questions.
